Security and Resilience Strategies: Protecting People, Profits, Property, Information, and Reputation

Welcome to CSO 360 Global!

We are thrilled to invite you to join our **8th CSO 360 Global Congress**, the flagship event by Pulse Conferences for Directors of Corporate Security, Resilience, Investigations, Investigations in the beautiful city of **Rome on 4-6 December 2024**. This 8th flagship edition promises to be a memorable feast for security hearts and minds!

Amidst fast-evolving threats across geopolitics, technology, business, and economics, our global community will reunite to share trust-based strategies and tactics for securing international business and government sectors.

The journeys, predictions and stories will span diverse topics and breaking security news including geopolitics, supply chain security, response and recovery, K&R, insurance, human security, ROI, AI, cyber, culture, disinformation, climate risk and threat mitigation.

A dedicated evening schedule of networking receptions, dinners and cultural experiences is an integral part of the CSO 360 experience!

Reserve your spot today! We look forward to welcoming you in Rome.

CSO 360 Team
Pulse Conferences

Our Goals

- **Inspire and Prepare** – Connect and leave reinvigorated for positive action. Sit with peers facing a similar set of risks and opportunities as you!
- **Bridge Disciplines** – Benchmark and learn with cross-functional security peers, as well as from outside the security sphere.
- **Future Facing** – Prepare international directors of resilience, corporate security, investigations, intelligence through on the pulse agendas.
- **Facilitate a Collaborative and Trusted Community** – meaningful interactions with fellow directors of security, investigators, intelligence, cyber, and subject matter luminaries.

Key Themes for Rome, December 2024

Stay 'on the pulse' of the security and geopolitical landscape – threats, risks, trends, analysis, predictions and mitigations.

- **Evolution 360:** Purpose and mission of security, resilience, intelligence, investigations leaders today and tomorrow.
- **Crisis 360:** Business challenges and successes in an era of widespread mis- and disinformation (including use of AI), social media unrest.
- **Innovation 360:** Deployments, leveraging advanced technologies for security scale-up opportunities.
- **Resilience 360:** Preparedness for events such as catastrophic severe weather..
- **Collaboration 360:** Approaches of holistic security, multi-disciplinary, cross-verticals, public-private.

post-event
report!

"I've heard many good things about CSO 360 over the years. Many directors of security I know have become 'CSO 360 groupies' and talk about it in such fun terms. There has been some excellent content, and I've taken a lot of notes. There's a nice social atmosphere as well. We've done some fun things in the evening – a perfect mix of work and downtime."

Rachel Briggs OBE, Co-Founder and CEO of The Clarity Factory

Testimonials

"My first time at the CSO 360 Congress has been an absolute triumph. There's a huge cross-section of speakers and a genuinely international audience. Hence, you gain deep perspectives. Some good socialising also goes with it, where you can meet and build relationships without necessarily talking about business. The setting here in Berlin has been spectacular – not least at dinner in the German Parliament. If you are a CSO or a CISO, it's certainly worth attending – it's probably the most informative event of this type I've been to. If you are a consultant or someone who works with the C-suite, it's hugely important to be here because you're meeting the people who are often the gatekeepers who are often difficult to get to know and meet outside of these events!

CEO and Founder, Defuse

"This opened up many new horizons, thank you. Great meeting intellectual security business people!"

Deputy CSO, LC Waikiki – Türkiye

"As this was my first 360 event, I had no preconceptions. Therefore, I was more than pleasantly surprised as I experienced such a warm friendly, professional and fast-moving conference and networking event. I met so many old friends, new contacts, good people, possible suppliers, clients or contractors. A fabulous and valuable use of 3 days of my time!"

Head of Global Security, Brown Brothers Harriman

"I loved my first CSO 360. I followed the 2022 edition in Istanbul on LinkedIn and saw very positive comments from the community. The mixture is right. You've got security practitioners and outside providers. Sometimes, with Germans, we do get focused on facts and data. But having the British and international influences and a bit more light-hearted approach makes it a worthwhile conference. I lived in Berlin for nearly ten years and had never had the opportunity to eat in the Reichstag before – what a treat!"

Head of Business Resilience, Siemens Healthineers

"It is an absolute privilege to come here and speak at CSO 360. The audience's engagement level was very high. During the coffee break afterwards, I couldn't move because so many people wanted to learn more, which shows what the community is like. They're a great group from a diverse range of industries and companies. I'll be back next year."

CEO, The Association of Corporate Investigators

"This is my first time at CSO 360. I wanted to connect with other individuals passionate about improving the quality and efficiency of the products they're providing for their firms. I've had an absolutely amazing time and a long list of highlights. This includes connecting with other professionals looking at the same issues from various perspectives. The boat cruise and dinner at the Reichstag were also amazing. The networking here has been unique and incredibly valuable."

Director of Training, Emergent Risk International

"What a successful conference. It's been brilliant. The quality of the conversation and the delegates were amazing. The networking is unrivalled. The hospitality is superb. Thanks, Germany, for a wonderful event. It just gets better and better and better every year. And I cannot impress on people enough how you need to be at the next conference in 2024."

Chief Education & Development Officer – Association of Corporate Investigators (ACI)

"Wow! Great quality speakers. Exciting networking events!"

Head Forensic Services, KCB Group PLC – Kenya

"This conference is very different from any other one I've been to because it's bigger, there's more to do, a huge range of topics, and everyone's lovely. I had a great time in the evenings. As a vendor in the security recruitment space, we have had lots of people coming up to us. We're here, we're networking, getting to know people and telling people about our opportunities as well. I would definitely recommend CSO 360 to other people. I've learnt a lot over the past few days, spoken to interesting people and had a great time."

Recruitment Consultant, Enteles Search

"Excellent location, content and organisation. Very good environment for networking and the atmosphere was exceptional!"

Head of Security Services UK EMEA, Credit Suisse

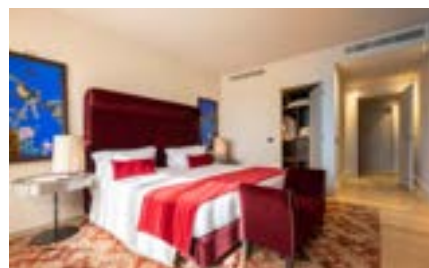

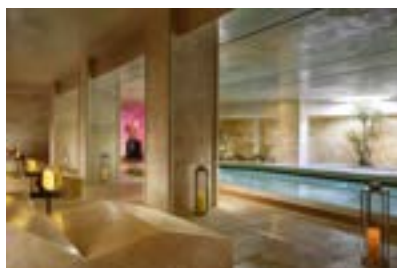

"It's my first time at CSO 360, and I came because of the topics on the agenda and the people attending. There were exciting speakers at the conference, especially the keynotes on both days. I will make the time to attend next year to see even more fantastic people from all around the world, speak with other people, hear their concerns, and learn from them."
