## AI VS AI: THE CYBER BATTLEFIELD OF TOMORROW

16 JANUARY 2025 | 5:30 PM - 9:30 PM  
PRIVATE EXPERIENCE ROOM AT REVOLVER - SINGAPORE

CISO 360  
ROUNDTABLE

**REGISTER  
HERE**

### WANT TO STAY ONE STEP AHEAD OF THE NEXT EMERGING TECHNOLOGY THREATS? HOW ARE CISO PEERS PREPARING, INNOVATING AND EMPOWERING?

We invite you to join our exciting new CISO 360 Roundtable at Revolver Singapore, recently voted one of Singapore's finest private venues, where you'll connect with top CISOs and cybersecurity peers to discuss winning strategies for innovating, defending, and empowering organisations against the backdrop of the cyber battlefield of tomorrow: AI vs AI!

Co-led by a fellow CISO and Dr. Ruth Protpakorn (KnowBe4), join this future-thinking roundtable about the intricate dance between protective and malicious AI.

This knowledge-sharing session delves into the evolution of deepfakes, predicting their increasing sophistication and potential to revolutionize social engineering attacks. A key focus is the concept of using "good AI" to combat "bad AI," exploring how machine learning and artificial intelligence can be leveraged to identify and neutralize emerging threats. Discussion will focus on real-world experiences and insights from industry leaders on managing cyber resilience strategies.

Join us to share methods on anticipating and adapting to rapidly changing AI-driven attack vectors; the continued importance of awareness training, and the need for a symbiotic relationship between human expertise and AI systems in cybersecurity.

Kindly sponsored by KnowBe4 and hosted by Pulse Conferences, this event is held under The Chatham House Rule, ensuring a confidential environment where you can freely share and learn. This promises to be an evening of insightful discussions, peer networking, and a top culinary experience in the luxurious setting of Revolver's private experience room.

We hope you can join to collectively navigate the complex, AI-driven cybersecurity landscape of the near future.

Please R.S.V.P. today – limited places!

We look forward to meeting you.

Your sincerely,  
Team Pulse  
Pulse Conferences

### ABOUT KNOWBE4

KnowBe4 empowers your workforce to make smarter security decisions every day. Over 65,000 organisations worldwide trust the KnowBe4 platform to strengthen their security culture and reduce human risk. KnowBe4 builds a human layer of defense so organisations can fortify user behavior with new-school security awareness and compliance training. Deploying KnowBe4 results in users that are alert and care about the damage that phishing, ransomware and other social engineering threats pose. The platform includes a comprehensive suite of awareness and compliance training, real-time user coaching, AI-powered simulated social engineering, and crowdsourced anti-phishing defense. With content in 35+ languages, KnowBe4 provides the world's largest, always-fresh library of engaging content to strengthen your human firewall.

## ABOUT THE VENUE: PRIVATE EXPERIENCE ROOM AT REVOLVER SINGAPORE

A bold open-fire grill restaurant, Revolver brings together South Asian cooking sensibilities with international flavours and world-class produce. Fire is an essential element in the creations of Revolver's revolving menu. With its industrial-chic design and rocking atmosphere, Revolver brings upbeat energy to its shophouse setting on Tras Street.

Revolver's Private Experience Room boasts its very own bar and recently welcomed chef-partner Jitin Joshi.

Enjoy the space's sumptuous red palette, plush velvet and leather seats, and lit candles. Walking into the vermillion and carmine walled room that is Revolver's private dining room, you know you've walked into a private lair – ideal for private discussions on cybersecurity! This is your space.

An exclusive menu aptly titled "The Spread", features ever-evolving recipes inspired by the modern Indian restaurant's signature South Asian spiced plates, served up in a mix of individual and shared portions.

## AS A CISO, WHY ATTEND?

- Forge connections to expand your professional network with CISO peers in Singapore!
- Led 'by with and for' CISOs and senior cyber practitioners. Share real-world journeys and experiences on what works, what doesn't.
- Engage in candid conversation hosted under The Chatham House Rule of non-attribution.
- Gain valuable takeaways and highlight best practices for your cybersecurity strategy.
- Hosted in one of Singapore's top new private dining settings!

Seats are limited, we encourage you to secure your place around the table today.
