- Supply Chain Security: Navigating risks in an interconnected world

“I was delighted to attend my first CSO 360. I found it inspiring and motivating, offering fresh perspectives on security leadership. The Global Congress highlighted how security transcends traditional boundaries – whether protecting priceless artefacts or managing complex AI implementations. The question that resonated most was: ‘How do you bring value to your organisation?’ This provocation aligns perfectly with our mission at the Met, where we’re transforming security culture through innovative approaches. The diversity of attendees and the quality of discussions makes this event unique. I’ve already recommended CSO 360 to other cultural institutions in New York City, as I don’t think they can miss the next one.”

Regina Lombardo, Chief Security Officer, Metropolitan Museum of Art
