"I was delighted to attend my first CSO 360. I found it inspiring and motivating, offering fresh perspectives on security leadership. The Global Congress highlighted how security transcends traditional boundaries – whether protecting priceless artefacts or managing complex AI implementations. The question that resonated most was: 'How do you bring value to your organisation?' This provocation aligns perfectly with our mission at the Met, where we're transforming security culture through innovative approaches. The diversity of attendees and the quality of discussions makes this event unique. I've already recommended CSO 360 to other cultural institutions in New York City, as I don't think they can miss the next one."

TUESDAY 25 MARCH 2025

An Integrated Approach to Security Leadership: Where are our critical resilience gaps? What is the best way for organisations to join up their defences across digital and physical spheres?

A highlight of **both the CSO 360 Americas and CISO 360 Americas agendas**, The Bridge is a unique **cross-security roundtable** designed to unite CSOs and CISOs and professionals across security disciplines. This **multi-faceted** session facilitates open dialogue and collaboration on critical security challenges at the convergence and intersection of physical and cyber security.

Why Join:

- Leave with practical takeaways on **where to start shared by those who are already converging pathways & breaking silos!**
- Practitioner-led **insights, strategies, and best practices** in a trusted Chatham Rule setting
- Foster stronger alignment between security disciplines
- Explore areas of critical challenge where the physical security, cyber, intelligence, electronic warfare, IoT and product security converge.

Format:

Our experienced roundtable faculty will steer the group conversation in a format that **mixes plenary with smaller working groups** who will feed back into the main discussion. No slides.

Key Talking Points Shaped by CISO and CSO Practitioners:

- Global geopolitical risks for enterprise
- Cyber-physical threats in the supply chain - Lessons learned from Colonial Pipeline
- Intelligence fusion and the confluence of risks
- Where are our critical resilience gaps? How can we prepare for future disruption?
- Mis and Disinformation - How can cross-security disciplines work together
- Keeping pace and future skills to stay ahead of AI, Quantum and emerging technologies
- Well-being and mental health in security

Convergence Spotlight & Moderator:

- **Justin Crump**, CEO, **Sibylline**

Roundtable Faculty Including:

- **Dr. Allen Ohanian**, CISO, **LA County Dept. of Children and Family Services**
- **Dr. Viktor Polic**, CISO, **ILO, United Nations**
