BUILDING A STRATEGIC THREAT EXPOSURE MANAGEMENT FRAMEWORK

We are thrilled to invite you to join this exciting new CISO 360 Roundtable: Building a Strategic Threat Exposure Management Framework at Six Park Space in Mayfair London, where leading CISOs and cybersecurity practitioners from across industry sectors will exchange insights, strategies, and predictions on the evolving threat landscape.

Key talking points:

- Leveraging real-time threat modelling to expose gaps in visibility, controls & detections
- Prioritise actions required to fill those coverage gaps, mis-configured controls and tool deficiencies
- Answering the questions of; what threats should I care about most? What are the gaps in my defences? What do I fix first, and more importantly, why?
- Sharing best practices for designing and scaling a continuous threat management approach across hybrid environments

Held under Chatham House Rule, this roundtable offers a rare opportunity for peer-to-peer knowledge sharing in an intimate, high-trust environment.

Indulge in a top-tier culinary experience in the newly restored, elegant Edwardian meets Garden Chic setting of Six Park Place, while engaging in dynamic discussions with fellow CISOs.

Hosted by Pulse Conferences and kindly sponsored by CyberProof, this is an invitation-only event for senior cybersecurity leaders.

We look forward to welcoming you for an unforgettable evening of insight, networking, and collaboration.

Yours sincerely,
Team Pulse
